KITS & HOME BUILDER PARTS

For those of you who prefer to build your own locomotives but lack machining facilities, we offer the following range of chassis and parts as used on our own engines.

TENDERS (finished - Ready-To-Run and painted)

The following tenders are available as separate items, and are ready to run.

FT	Bogie tender, as Fowler locomotive (state colour and gauge).....	£ 183
GT	4 wheeled tender as George Locomotive (state colour and gauge)...	£ 183

KITS

HBK1	Billy Chassis Kit	£345.00
HBK2	Lady Anne Chassis Kit	£387.00
HBK3	Billy Boiler Kit	£370.00
HBK4	Lady Anne Boiler Kit	£362.00
HBK5	Billy Body Kit	£119.00
HBK6	Lady Anne Body Kit	£143.00
HBK7	4 wheeled Tender Kit (as George)	£137.00
HBK9	Bogie Tender Kit (as Fowler)	£137.00
HBK10	Lady Anne R/C Fittings Kit	£ 33.70
HBK12	Billy R/C Fittings only kit	£ 33.70
HBK15	Katie chassis kit	£345.00
HBK16	Katie boiler kit	£362.00
HBK17	Katie body kit	£119.00
HBK18	Katie R/C fittings only kit	£ 33.70
HBK20	Fowler chassis kit	£397.00
HBK21	Fowler boiler kit	£377.00
HBK22	Fowler body kit	£153.00
HBK23	Fowler r/c fittings kit	£ 33.70
HBKD1	Diesel loco chassis kit	£255.00

NOTE: Chassis parts are designed for use with 1/16" (1.6mm or I6swg) thick mainframes of 'outside frame' design. Boilers, cylinders and valve-gears are supplied with full installation instructions.

RSB3	Bogies 32mm gauge 2ft 6in one pair inc wheels	£ 27.00
RSB4	Bogies 45mm gauge 2ft 6in one pair inc wheels	£ 27.00

These Bogies are as fitted to our Fowler Locomotive.

Fully built and tested Chassis and Chassis Boilers

040WC	0-4-0 Walschaerts chassis only..... Complete working 0-4-0 chassis with twin 9/16" slide valve cylinders and Walschaerts type valve gear, as 'Katie'.	£533.11
040WCB	0-4-0 Walschaerts chassis/boiler..... As above but with boiler and all steam fittings. Ready to run.	£873.19
060WC	0-6-0 Walschaerts chassis only	£574.98
	Complete working 0-6-0 chassis with twin 9/16" slide valve cylinders and Walschaerts type valve gear, as 'Lady Anne'	
060WCB	0-6-0 Walschaerts chassis/boiler	£909.96
	As above but with boiler and all steam fittings. Ready to run.	

We also offer the following units from our Basic Series Locomotives for the home builder. Available in either 32mm or 45mm gauge, these models are not adjustable between gauges. Insulated wheels are not available on these models.

040SEBCB	0-4-0 Slip-eccentric chassis boiler	£ 507.57
040SECO	0-4-0 Slip-eccentric chassis only	£ 276.77

Modular Locomotive System 'Lady Anne', 'Billy', 'Katie' and 'Fowler'
Locomotives in kit form

By building it yourself, not only are you saving money, but you will have the satisfaction of producing your own working model, and being modular, you can buy each kit separately and build at your own speed. You don't even have to buy a full set of kits, you may want just the chassis and fit your own boiler and body ,or a chassis and boiler then build your own body to suit, it's as flexible as you make it. We also offer two types of tender in kit form. Building a steam locomotive is not the easiest of projects, but our kits contain all the necessary parts together with detailed instructions and require only basic tools for assembly. No machining is necessary, though a couple of holes will require drilling and the bodywork is designed for soft soldered construction. These are not 'build it in one evening' kits, however any average modeller with care and patience can build a model to be proud of. Painting of all items is left to the builder.

The following kits are now available.

Chassis Kits

- HBK1** Billy
- HBK2** Lady Anne
- HBK15** Katie
- HBK20** Fowler

Boiler Kits

- HBK3** Billy
- HBK4** Lady Anne
- HBK16** Katie
- HBK21** Fowler

Body Kits

- HBK5** Billy
- HBK6** Lady Anne
- HBK17** Katie
- HBK22** Fowler

R/C fittings kits:- HBK10 Lady Anne, **HBK12** Billy, **HBK18** Katie & **HBK23** Fowler

We also offer three tender kits:-

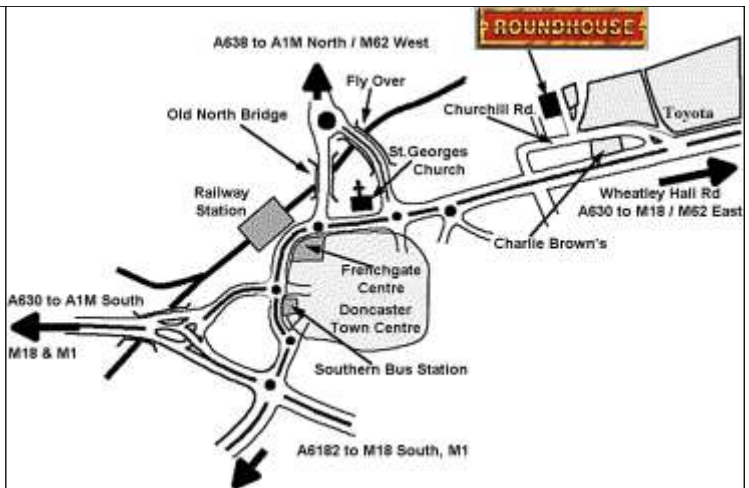

- HBK7** 4 wheeled tender kit (George,) please state gauge.
- HBK9** Bogie tender kit (Fowler,) please state gauge.

PLEASE NOTE:- Our steam models are NOT toys, and are therefore unsuitable for unsupervised children. They are working steam locomotives, that use butane gas to boil water, which produces steam to power the models. Consequently, parts of the models become very hot.

ROUNDHOUSE

2012

**ROUNDHOUSE has turned 30.**

For 3 decades we have designed, manufactured and tested narrow gauge live steam locomotives. Simply supplying stunning steamers is only part of the story - we pride ourselves on the unparalleled service and guidance given to many thousands of our customers. We raised a glass to you all, on our anniversary the 4th Feb 2012.

Mountaineer This was one of a hundred locomotives built by Alco at their Cooke works in 1916 for the British War Department Light Railways (WDLR). She moved to the Ffestiniog Railway on 2nd Nov 1967, where she was steamed and entered service the following weekend. She was last in service in Feb 2006 and is now in storage awaiting the time and money to restore her back to her former glory. Our superb model of Mountaineer depicts her as she was, just prior to removal from service in 2006. Much more information is available on our website.

Charles An Old Friend Returns. Discontinued a few years ago, 'Charles' was the most popular of our trio of Penrhyn locomotives. The only slight shortcoming was the need for a coal truck to house some of the Radio Control equipment. Due to our engineering skills, brilliance and general '*je ne sais quoi*', we have cunningly incorporated said R/C gear completely within the cab area of 'Charles'. Well done us!

Leek & Manifold

What a stunner! Big and Beautiful just about sums it up. This 2-6-4 loco has our simplified Walschaerts Valve gear, glazed cab windows, insulated wheels and a water top-up system and water gauge fitted as standard. You really do need to see this locomotive in the flesh to appreciate its awesomeness (is that a word?). Failing that, have a look at our website.

Roundhouse Multi-Tool When building our locomotives and assembling parts, we have always relied on a few specialist tools. The most frequently used are ones that adjust our safety valves, fit and remove the gas filler valves and a tool that makes fitting the starlock washers much easier. We thought that other people may appreciate these and so we specifically designed an All-in-One tool that also includes Slot and Phillips head screw bits. Whilst we thought they would be popular, we were a little taken aback by the demand for them. All bits are 1/4" hexagon shank and are held in the tool holder magnetically. As a bonus, the internal magnet extends out on a telescopic shaft to make a useful pick up device.

Web Documents. We receive many requests for technical information regarding our models and home builder parts. This involves us in printing the document, inserting it into an envelope, putting the address on the envelope, sticking a stamp on it and finally handing it to our pleasant post person. This rapidly adds up to quite a few hours work that we would rather use to make locomotives. 'So', we thought to ourselves, '*how about putting the most requested documents onto our web site so people can read them there?*'. Fire up your computer and make tracks to the 'DOWNLOADS' section of our web site.
